

## Singer's Masks

The KHS Choir directors have found what we believe to be the best “singer’s mask” on the market. Our booster club will be making a bulk order to get as many of our singers into these masks as possible. The cost is \$11 which includes tax and shipping. Masks can be purchased from the store on charms. The deadline to order a singer’s mask is Friday, January 29<sup>th</sup>.

*“The TMF Vocal Performance mask design allows for full facial and jaw movement without compromising aerosol containment. The mask’s special construction allows the performer to comfortably move his/her mouth while being completely covered. The one size fits all filtered mask may be used for vocal performance in choral, theatre, and public speaking settings. Mask is machine washable with air drying recommended”*

These masks were studied in comparison to other singer’s masks on the market. To view the study go to: <http://iv.colostate.edu/masktesting/>
